EXPERIENCE

Founder's Office Intern — Strategy & Operations · [ERIC Robotics](#) · Pune

Aug 2025 – Present

- **Market Intelligence & GTM:** Led competitive analysis and market sizing for rail defect detection (B2G/B2B, Indian Railways/PSUs) — synthesised findings into a phased GTM plan adopted as the company's go-to-market blueprint by co-founders.
- **Venture Evaluation:** Evaluated new business opportunity in PCB defect detection — assessed market feasibility, competitive landscape, and strategic fit; findings directly triggered R&D initiation.
- **Operational Design:** Mapped execution gaps across all teams through structured employee interviews; designed sprint cycles, QoQ roadmaps, and cross-functional sync cadences — PMO adopted across 4 teams within 3 weeks.
- **Financial Analysis:** Built OPEX model for Robotics-as-a-Service; ran monthly MIS across PSU projects — delivered QoQ/YoY variance analysis and ROI assessments as decision-support intelligence to co-founders.
- **Resource & Capacity Planning:** Designed engineer allocation model across project, task, and subtask levels — structured ambiguous bandwidth problem into a formula-driven framework adopted within 2 weeks.
- **Executive Communication:** Translated founder thinking into structured pitch decks, business plan presentations, and investor-grade strategy materials for external stakeholders.
